

Product Adventure

Reusable Eco Bamboo Fibre Cup

Food grade silicone lid and sleeve, designed for high temperature use up to 120°C.

Silicone is made from silicon and is chemically inert so will not leach into food. Silicone is non-toxic to aquatic or soil organisms, (and can be recycled after its life time of use.)

**Bamboo
Fibre**

**Corn
Starch**

Binder
(food grade
melamine)

99% Of disposable cups are discarded rather than recycled

Bamboo helps to reduce CO2 and can generate up to 35% more O2 than equivalent trees

Sustainable by design:

Look after your Bamboo cup and it will last years!
